Mordecai A. Dicker, M.D.

Chaim S. Abittan, M.D.

David Milkes, M.D.

Our New Partnership

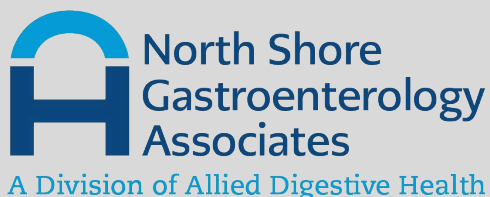

North Shore Gastroenterology Associates (NSGA) is proud to join Allied Digestive Health (ADH), a multi-specialty gastroenterology group that offers a full spectrum of services to provide you the diagnosis and relief you deserve. Our new partnership will not affect the current practice of medicine in our office, but it will allow us to enhance our services. Patients visiting NSGA will have access to ADH comprehensive care including gastroenterology services, pathology, anesthesia, and clinical research and trials. We look forward to seeing our practice continue to thrive as we share, learn, and grow with ADH.

Effective **May 13th, 2022**, patients may be affected by administrative changes regarding referrals and authorizations, forms, and billing statements. Please speak with the front desk or call our office for more information.

A welcome from ADH President, Robert J. Gialanella, MD

Allied Digestive Health extends a warm welcome to the physicians, staff and patients of NSGA. We are excited to see our ADH family grow as we move into our sixth year serving our community. The expert group only exists because of the talented and dedicated physicians and staff working together for the good of its patients and the community abroad. Thank you for all you do. Welcome to the team!
